INTRODUCTION to ITCK

The Italian Chamber of Commerce in Korea (ITCK) is a non-profit organization established in May 2008 with the aim of strengthening, promoting and supporting cooperation between Italy and Republic of Korea.

From the beginning, ITCK has proved to be a reliable link between the two countries and an essential point of reference for all those aiming to establish ties with one another.

The enthusiasm and energy, which have always driven the activities of ITCK, have made it possible to obtain impressive results in a few short years for its members.

The ITCK also has enabled a wide range of companies and business entities to become directly involved in spearheading new initiatives for bilateral investment and trade

The presence of ITCK in Republic of Korea has proved to be expanded particularly after signing the EU-South Korea Free Trade Agreement in October 2010.

Analyzing the latest market trends, introducing to appropriate government entity or business partner for collaboration, and serving the interests of both Italian and Korean partners are, but not limited to, the goals that drives ITCK.

MESSAGE FROM THE AMBASSADOR OF ITALY

H.E. FEDERICO FAILLA

for the ITCCCK Membership Directory

The year 2020 has been marked by an unprecedented emergency, the COVID19 pandemic, that is still affecting the lives and the economies of most countries in the world, including the Republic of Korea and Italy.

In this fight that see all the countries in the world united to end the contagion and re-start the economic system, we are finally seeing a possible way out thanks to the vaccination campaign which is well ongoing around the world. Also the Republic of Korea has recently started the vaccination process, which should allow to reach herd immunity before the end of this year.

The present circumstances remain uncertain but our companies see the light at the end of the tunnel. The strong measures taken by the Italian Government and by the European Union are in fact paving the way of an economic recovery that we all hope will be based on greener and environmentally friendly technologies, more balanced and targeted to fight the climate change. Such determination is reflected in the priorities of the Italian Presidency of G20: people, planet, prosperity.

The Italian Government, as co-organizer of the COP26, is highly committed to reduce pollution and to a coal-free society, fully aware that the actual economic system can no longer be sustainable. In this regard, we are willing to cooperate as much as possible with our Korean partners, both institutional and private, to facilitate investments in green and renewable energies, in order to phase out from the present coal-powered economy. It is an obligation that we all have towards our children, who will bear the most the climate change.

Regardless the pandemic, 2020 has been a positive year for our bilateral trade: figures from the Korean official sources show an overall bilateral exchange that has increased by 3% compared to 2019. But we are also aware that many business sectors suffered a lot during 2020 and will need funds and help to recover completely. Let's not miss this opportunity to create an economic system that is more environment-centered, taking advantages of our extraordinary technologies and scientific discoveries. Together with our Korean partners and with the precious help of the Italian Chamber of Commerce, we can all contribute to a global change and to a better world for all, after the hard times of the pandemic.

THE AMBASSADOR OF ITALY
Federico Failla

MESSAGE FROM THE PRESIDENT

Mr. Francesco Fussi
for the ITCKK Membership Directory

It is an honor and privilege for me to cover the role of President of the Italian Chamber of Commerce in Korea (ITCKK), an institution founded in 2008 that has seen over the years a succession of smart and passionate professionals and the number of its associate Members always increasing.

2020 was undoubtedly one of the most unexpected and complex years for each of us to face, individuals, businesses and institutions, and ITCKK was no exception.

Amongst the impossibility of organizing face-to-face meetings and the reduction of spending budgets, an internal reorganization and the remodeling of many activities became necessary; however, today we can proudly say that also through 2020 ITCKK succeeded in honoring its mission in an economically sustainable way. Among the various activities undertaken, I would like to mention the various Webinars aimed at companies in different business areas (Architecture, Industry 4.0, Viticulture ...), the "Italian Hospitality" Quality Certifications, the virtual Master Cooking Classes, in addition to the numerous B-t-B services.

For this "success" I wish to thank all our Collaborators, our associate Members, all the Companies that co-operated with us and the Chamber and Government Institutions - with a special and heartfelt thanks to the Italian Embassy in Korea - who always offered a continuing support.

During 2020 our Board of Directors was enriched with new Members who embraced the cause of ITCKK enthusiastically. ITCKK can now offer an expert opinion and a significant network of relationships in various areas of strategic interest, including Food & Beverage, Fashion & Luxury, Industry & Innovation, Entertainment and Communication.

With a look to 2021, in addition to strengthening our traditional activities in the areas of consultancy to Enterprises, B-t-B meetings and in the organization of Events, it is our intention to further develop our recruiting platform "The Italian Job" and broaden the base of Services and Benefits for our Members, with the hope of welcoming an increasing number of them.

In conclusion, we hope that 2021 will be a year of gradual return to normality and economic recovery for everyone, where ITCKK will be determined more than ever to play the role of facilitator and accelerator, providing energy and skills to promote mutual knowledge and the development of trade relations between Italy and Korea, thus contributing to making these two extraordinary countries ever closer.

ITCKK: ITALY and KOREA closer than ever.

ITCKK PRESIDENT
Francesco Fussi

MESSAGE FROM THE SECRETARY GENERAL

Mr. Jacopo Giuman
for the ITCKK Membership Directory

Dear ITCKK Members,

As I approach my third year as the Secretary General of the Italian Chamber of Commerce in Korea, I want to renew my gratitude towards our members in these unprecedented times.

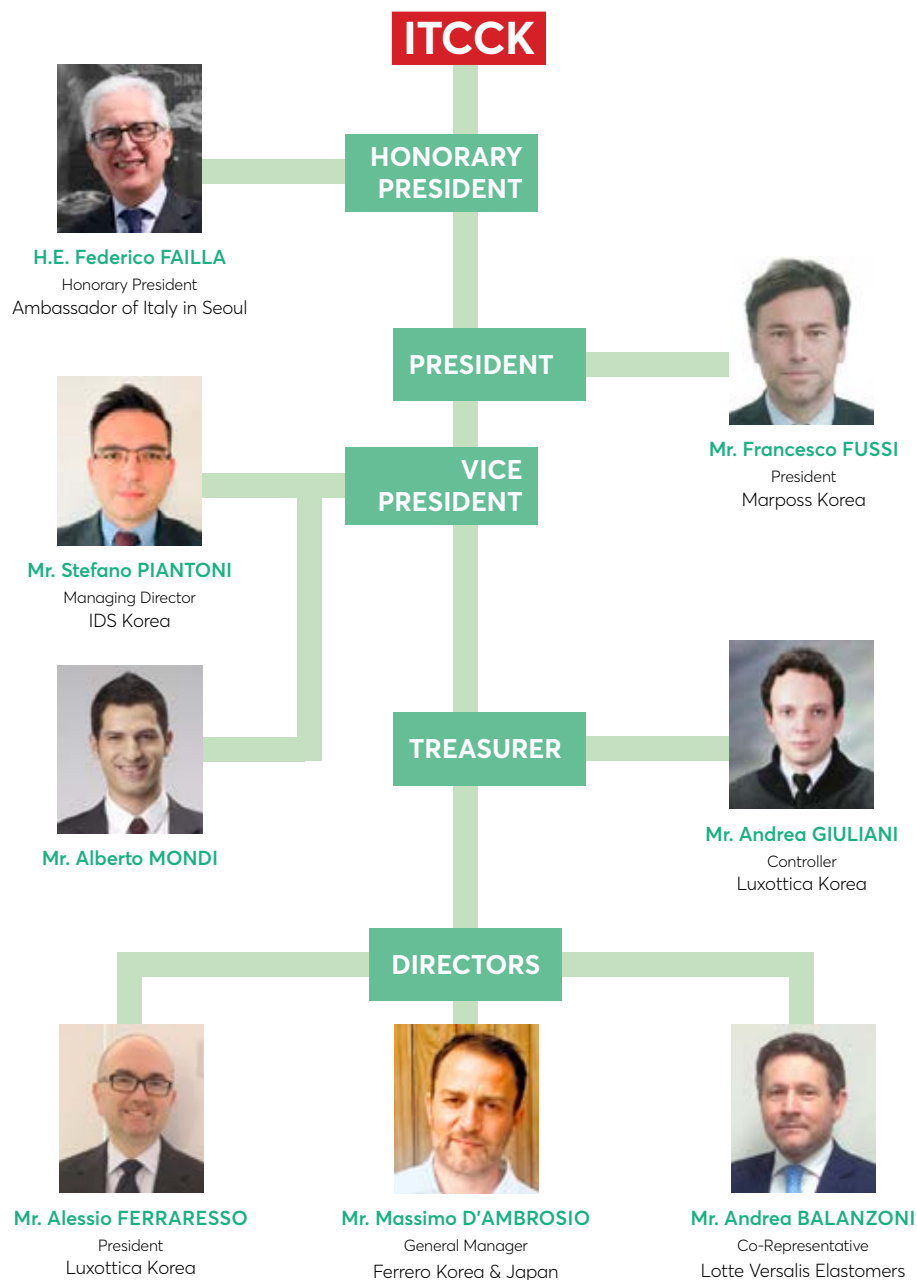

The COVID-19 pandemic has posed a challenge to both the Italian and Korean business environment, accelerating digitalization, and bringing disruptive change in our market. 2020 was a trying year, in which our staff was faced with the hardships of testing a new, blended way to conduct our events in a socially distanced manner. Given the restrictions and the exceptional circumstances we found ourselves in, I feel proud of the achievements the Chamber accomplished in 2020.

Inheriting the legacy of the past year, the ITCKK renewed its commitment to deliver events within the broader framework of the "True Italian Taste" project. We are particularly proud of the Italian Food Festival, which saw the outstanding collaboration of more than fifteen local restaurants. In 2020 we also oversaw the fifth edition of the World Week of Italian Cuisine, which culminated in the Ospitalità Italiana ceremony and in the Business Dinner hosted in November.

Despite the hopeful signs of economic recovery, 2021 will still largely be a year of transition out of the pandemic. I am however very hopeful that the vaccination campaign and the enthusiasm of our staff and the Board of Directors will allow the Italian Chamber of Commerce in Korea to soon return to our pre-pandemic levels of activity. I also want to commend our associates for the resilience demonstrated during this year and I welcome new opportunities for mutual exchange and collaboration.

SECRETARY GENERAL
Jacopo Giuman

The Italian coast is incredible, displaying stunning landscape of rare beauty, among the world's most famous wonders.

The Italian Peninsula covers a surface of over 301,323 km².

Located in the southern part of Europe, Italy enjoys its strategic position connecting Asia and Africa. Italy, affectionately known by many as "Bel Paese", is characterized by a variety of outstanding geographical landmarks. It is partly covered by mountains (the Appennini chain which encompasses a very large area and the 1,200 km-long Italian Alps, with many summits over 4,000 meters high).

Italy is also known for the large Padan plain, for its lakes (especially Garda, Maggiore, Como, Trasimeno and Bolsena) and for the considerable volcanic presence: Etna (the highest volcano in Europe), Vulcano, Vesuvius and Stromboli.

Historically speaking, Italy has not only played a determining role in the development of the Mediterranean region but in the XV-XVI century also founded a whole new way in which the Europe perceives the world and itself, giving birth to an essential cultural movement famously known as "Rinascimento" or Renaissance.

During that period, Italy and Europe opened themselves to the "new world" with the discovery of America. In doing so, they boosted their economies thanks to the intensification of international commerce and trade. Moreover, Italy has historically played the role of "bridge" between the East and the West, becoming the first western country to establish commercial relations with China and other eastern countries. Italian international trade sector has developed throughout the centuries, thereby building solid basis in international commerce and allowing the country to become an elite competitor with first-class products.

Today Italy is also renowned all over the world for its brands, frequently ranking first in all the productive sectors. In terms of commerce, the main sectors of Italian economy are light manufacturing, transportations and, on the whole, services.

The Italian economy is based on a considerable number of small and medium enterprises, which guarantee the highest quality implied by the "Made in Italy" concept.

ADM Srl - LATTERIA DEL CURATINO

Mozzarella Concept

A

Activities

The business idea was born in 2013 from two businessmen from Campania, Antonio Petrosino and Michele Ponticelli, owners of the PCA-Comat (<http://www.comatonline.com/>), a multinational active in the sector of the production of machineries for dairy products, and Podere dei Leoni (<http://www.poderedeileoni.com/>), producer of dairy products which are distributed all around the world. Both the companies have been present on the international market for 25 years.

People from Campania, going around the world, sometimes miss something good, a fast and fresh snack: mozzarella! Mozzarella could even be found at the supermarket, left in the fridge without the awareness of its real taste and the right temperature to serve it. From these considerations, the idea of realizing stores which could offer a "just made, fresh and pure" product was born.

Il Muretto

Italian Restaurant

Activities

'Il Muretto' in Italian means 'low wall'. In all Italian cities, the Italian countryside and Italian beaches there are lots of low walls, mostly with hundreds years of history. Most of them were originally built to separate private properties, but then in history they became places where people would actually seat down to gather, spend time together and to enjoy snacks and drinks in the fresh air.

The restaurant is named after those low walls where we spent some of the best times of our youth, and we hope to become client's special 'low wall' here in Seoul.
The chef-owner Biagio Aprea has more than 20 years of experience cooking in various restaurants in Italy and working as a trainer and menu developer in Korean food corporations. In the menu you can find several authentic dishes from Naples, the chef's hometown.

Osteria Moon

Italian Restaurant

Activities

The history of Osteria Moon began in a quiet alley of Cheong-Ju in the winter of 2017 thanks to the teamwork of resident chefs, managers and cooks.

Osteria Moon represents the perfect mix of Italian traditional cuisine inspired by Cheong-Ju identity and the staff experiences and influences. The travels of Chef Kim in Italy and especially in Umbria are, for example, one of the major inspirations for his creativity.

The menu offers a wide choice of unique delicacies with a special care for local and fresh ingredients. Among the signature dishes, the charcoal smoked meat is a real sensation.

Osteria Moon is also socially involved running a non-profit organization (Force for Food) which goal is to offer gourmet experiences to those families living in the Chungcheongbuk-do area who could not afford them.
