Erasmus for Young Entrepreneurs: What is it?

Erasmus for Young Entrepreneurs is an exchange programme for entrepreneurs, financed by the European Union. The person you host gets a grant, and there is no charge to your company. This offers you the opportunity to share experiences with a new entrepreneur who will collaborate with you in your company. The exchange can last between one to three months.

Our hosting countries:

- Taiwan

Erasmus for Young Entrepreneurs: How it works:

The programme is run by a network of local contact points, including Chambers of Commerce, incubators and other organisations supporting businesses, present in the different participating countries.

After you have completed your online application and been accepted for the programme, the contact point you will have chosen in your country will help you to find a new entrepreneur that matches your requirements.

The new entrepreneur will spend time collaborating with you in your company, contributing to its development, while you will be sharing your entrepreneurial experience with them. This will be a personal commitment you cannot delegate to someone else.

There is a contact point near you that can help you throughout your application. To find it, go to "Your local point" on the programme's website.

You can benefit from the programme as a HOST ENTREPRENEUR if:

- You are a permanent resident (as defined by the programme) in one of the participating countries;
- You are the owner-manager of a small or medium sized Enterprise (SME) or a person directly involved in entrepreneurship at board level;
- You are willing to share your knowledge with a new entrepreneur and act as a mentor
